

HORSES IN FEI RIDES

Ride Distances:	FEI *	80-119km
	FEI**	120-139km
	FEI***	140-160km

If your horse has already completed an FEI ride within the past 24 months, it will start at the next star level. This is based on mileage, not star rating, as follows:

If your horse has already completed a FEI** 107km ride, it is only rated as a 1* horse, but can now compete at 2* level.

If your horse has already completed a FEI***120km ride, it is rated as a 2* horse, and can now compete at 3* level.

If your horse fails to compete at the next * level within 24 months of qualifying, it must re-qualify for its existing level in order to progress further.

After each FEI ride there is a mandatory rest period. Up to 80km is 13 days and 81km + is 20 days before your horse can be entered in another FEI ride.

If your horse incurs a Metabolic Vet Out that requires invasive treatment, your horse will have a mandatory 60 day rest period before it can be entered in another FEI ride.
